Review of the new medium-term management plan

IR schedule for revision announcement

- At the announcement of financial results for the fiscal year ending March 31, 2023, in May 2023, revised management targets for the final fiscal year (ending March 31, 2025) of the medium-term management plan will be disclosed together with earnings forecasts for the fiscal year ending March 31, 2024.
- In revising management targets, a comprehensive review of KPIs encompassing not only operating income but also net sales and ROE will be conducted.

Reasons for change of schedule

- To assess the final income level in the fiscal year ending March 31, 2023, as the upward momentum is expected to be maintained to exceed the targets.
- To improve the accuracy of income forecast for the fiscal year ending March 31, 2024, given concerns about downward pressure on earnings from the absence of spot sales, customers' inventory adjustment, and other factors.
