# Consolidated Financial Results <br> for the First Half of the <br> Fiscal Year ending March 2022 

## KAGA ELECTRONICS CO., LTD.

November 4, 2021
TSE 1st section 8154

## Summary of Financial Results for FY2022/3 2Q

## Shareholder

 return- Net sales increased, driven by the electronic components business that benefited from recovery in demand.
- Operating income increased significantly, achieving a record high for the first half, a result of higher gross profit reflecting higher sales, as well as facilitation of remote working, online conferencing and other tools, and efforts to curb expenses,
- Net income for the quarter decreased due to the absence of the 7.96 billion yen "gain on bargain purchase" resulting from the acquisition of EXCEL, which was posted as extraordinary income.
- In the components sales business, the tight supply/demand balance of electronic components continued but volume could be secured by
Electronic
Components leveraging strength in procurement capabilities. Net sales increased, driven by robust demand.
- In the EMS business, sales in the automotive, industrial equipment, and medical product areas were solid.
- PCs to educational institutions and PC peripheral equipment such as security software maintained the strong $1 Q$ sales trend.
Information - Net sales declined due to the impact of a reactionary drop in the sale of
Equipment PCs for remote work as well as extensions of construction periods in the LED and network device installation business caused by delayed delivery of products and materials.
- While taking note of the steady progress in the first half that exceeded initial plans, forecasts for the 3Q and beyond carefully incorporate the effects of risks such as opportunity loss arising from tight supply/demand balance of electronic components and soaring distribution costs.
- Forecast for net sales remains unchanged. Forecast for operating income is raised by 2 billion yen, targeting another record high for the third consecutive fiscal year.
- Interim and year-end dividends will both be increased by 5 yen from the initial forecast, to 45 yen per share.
- Full-year dividend will be 90 yen per share, an increase of $\mathbf{1 0}$ yen from $\mathbf{8 0}$ yen paid in the previous fiscal year.

FY2022/3 2Q Financial Highlights
(million yen)

## Reference Effect of M\&A (FY2022/3 2Q Results) (3months)

## Net Sales

EXCEL was flat year on year but Kaga Electronics and Kaga FEI drove growth in net sales

Despite cost increases due to higher sales at Kaga Electronics, the consolidated SG\&A ratio declined
